Monday, July 30, 2018 - First day of official XC practice

Total RUN Miles:

187

Total XTRAIN Miles:

36

GRAND TOTAL: 223

You can break up your mileage into twice a day workouts to hit your goals.

You will need a minimum of 1 hour of cross training (XTRAIN) each week in order to hit your 200 mile goal!

XTRAIN equivalents:

1 hour fitness class or strength training = 4 miles of running

1 hour of biking, elliptical, swimming = 4 miles of running

Please note in the comments section on your training log when miles are from cross training and not running and note what that XTRAINING is!

No more than 1/4 of your miles can be from XTRAINING. Example: 200 mile goal, a maximum of 50 miles from XTRAINING and at least 150 of your miles must be running miles. But you can do 150 miles running and unlimited XTRAINING miles so you could end up with 250 or more miles total.

Remember, this training schedule is just a guide.

Please move the workouts around to best fit your schedule.
